

MEMORANDUM FOR THE RECORD

Date: 30 Mar 2015

From: Marine Corps Authorizing Official (AO), Headquarters United States
Marine Corps (HQMC), Command, Control, Communications and Computers
(C4)

To: James Kagele (JFTC INFOSEC Officer) CWIX 2015 CIS Security Coordinator

Subj: STATEMENT OF SECURITY COMPLIANCE

Ref: (a) Annex C to CFBLNet Security and Information Assurance Strategy,
Version 7.0, September 2012
(b) NATO Security Policy for CWIX 2015

1. This letter of compliance affirms that our Marine Corps Coalition Interoperability Gateway (CIG) meets all the requirements outlined in the references for connection to the network (CFBLnet enclave) for use during the Coalition Warrior Interoperability Exercise, Experimentation, Examination, Exploration (CWIX) 2015. Coalition Interoperability Gateway (CIG) is equipped with security devices to safeguard information stored, processed and transmitted on the system.

2. We affirm the Coalition Interoperability Gateway (CIG), is operating under an Interim Authorization to Test (IATT) to process information classified up to and including National or NATO SECRET Releasable AUS/AUT/CHE/FIN/NZL/SWE, in accordance with NATO's security policy requirements. We affirm classified media will be protected according to established security agreements with NATO. Authorized users are aware of the security requirements for safeguarding information on the network during the duration of CWIX 2015. Users who are caught performing unauthorized acts will be dealt with under their respective nation's information technology laws.

3. The CWIX 2015 Security Point of Contact for the United States Marine Corps Authorizing Official (AO) is:

Josh Ingraham
MCEN Certifier/C&A Branch Chief
Headquarters Marine Corps C4 Cybersecurity Division
